Series of Virtual Workshops  
On

TEQIP-III

## Transition from traditional to blended learning: Challenges & Opportunities

Workshop-I	23 <sup>rd</sup> January 2021
Workshop-II	30 <sup>th</sup> January 2021

### About the Workshop

The IQAC-MITS, in collaboration with Manav Rachana University, Faridabad, Haryana is organising a two interactive national workshops in virtual mode on "Transition from traditional to blended learning: Challenges & Opportunities" on 23<sup>rd</sup> & 30<sup>th</sup> January 2021.

Digital learning techniques were slowly finding their way into regular teaching but the COVID-19 pandemic accelerated the process at a break-neck pace.

The shift was so sudden and drastic that the academic community had no time to deliberate or devise an action plan. It is also evident that digital tools and techniques, due to their myriad advantages, are now going to be an integral part of learning.

The workshops aim to prepare faculty members to accept and adapt to the new practices wholeheartedly and enthusiastically.

**The idea behind this interactive workshop is**

- (1) To inspire & guide the faculty to develop quality e-content
- (2) To familiarise them with the differences between digital & traditional teaching
- (3) To develop a new mind set so that the faculty is ready to accept the new & emerging scenario
- (4) To create awareness about the changing stakeholder expectations from teachers.
