

Global Initiative of Academic Networks (GIAN)

SUSTAINABILITY IN THE BUILT ENVIRONMENT

Global Initiative of Academic Networks (GIAN) is convened under the aegis of MHRD, Govt. of India. It ensures to garner best international experiences into our systems of education. The course aims to improve professional skills for the design and development of green buildings. The goal is to apply the learning in the development of passive design strategies for an existing building, complemented with the Excellence in Design for Greater Efficiencies (EDGE) software that focuses on improving energy, water and embodied energy use in the built sector through intelligent and informed use of passive and active designs.
